

下载一个软件 watt toolkit 加速器，这是 steam 加速器，但是也可以用来进入 github。

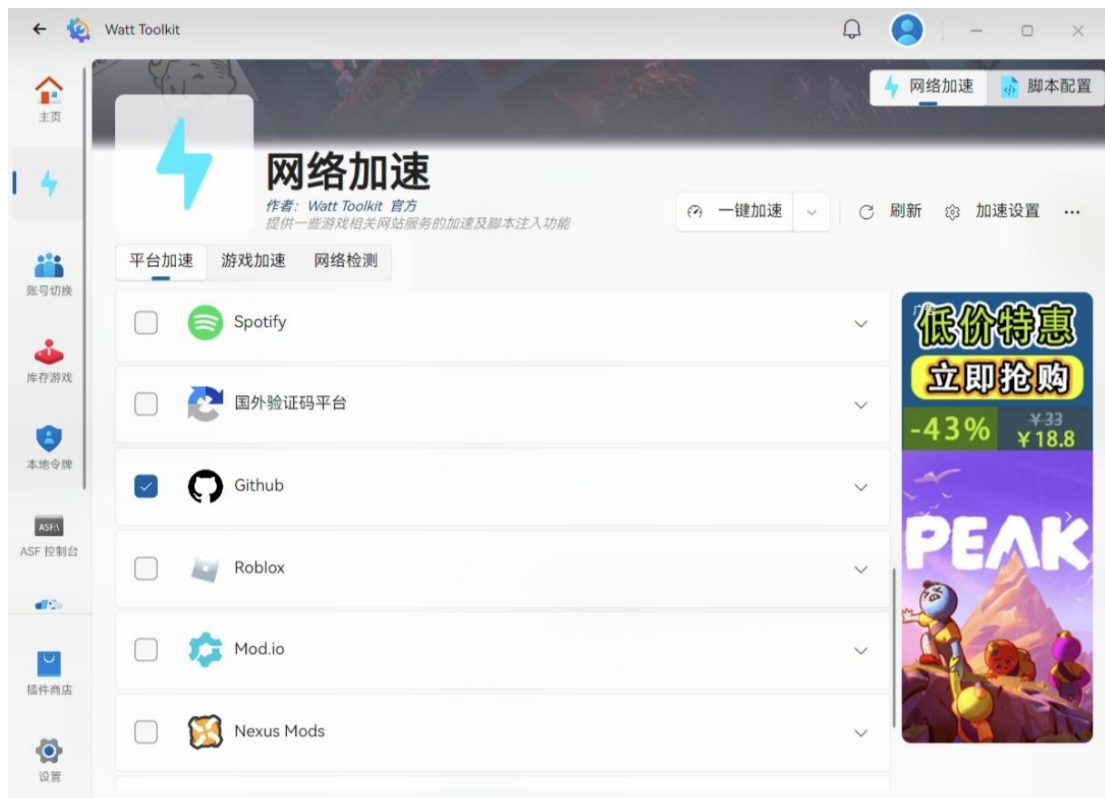

提供 watt toolkit 加速器的安装包，除此之外，watt toolkit 可以直接在微软商店里下载，你也可以选择直接在微软商店下载。

怎么使用，很简单：

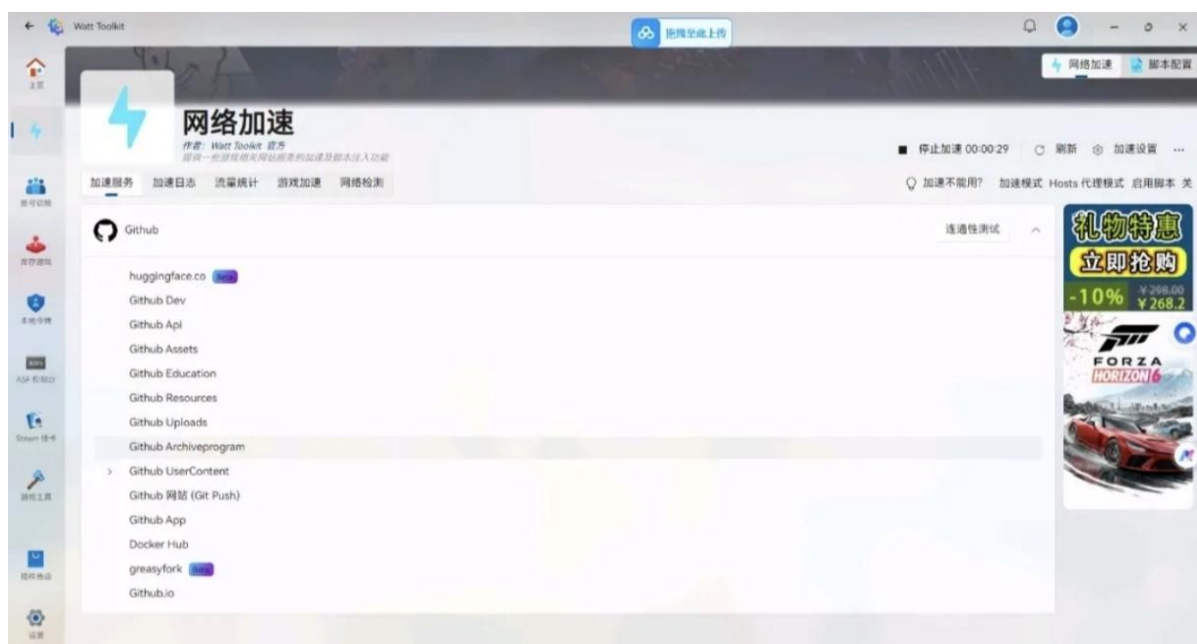

首先左侧点击“网络加速”，然后会看到这个界面：

将 steam 服务的勾选取消，然后翻到下面，将 GitHub 勾选上。点击“一键加速”：

最后的界面就是下面这样：

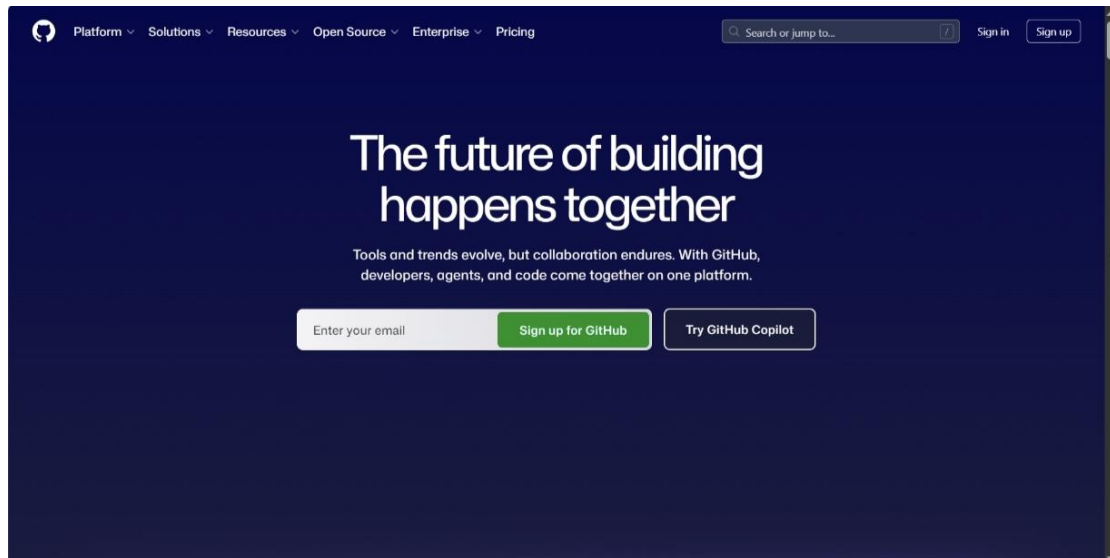

之后就可以用 GitHub 了。

GitHub 的网址：<https://github.com/>

怎样注册 GitHub

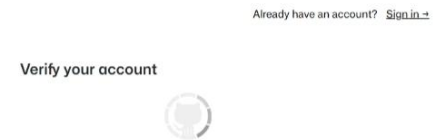

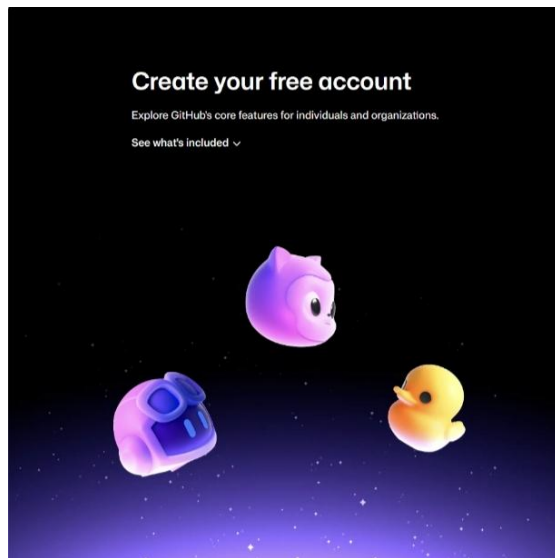

点击右上角的 Sign up 注册 GitHub 账号:

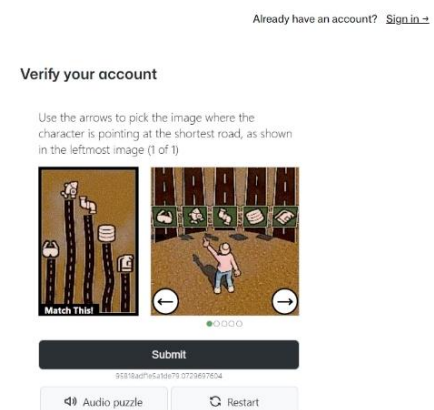

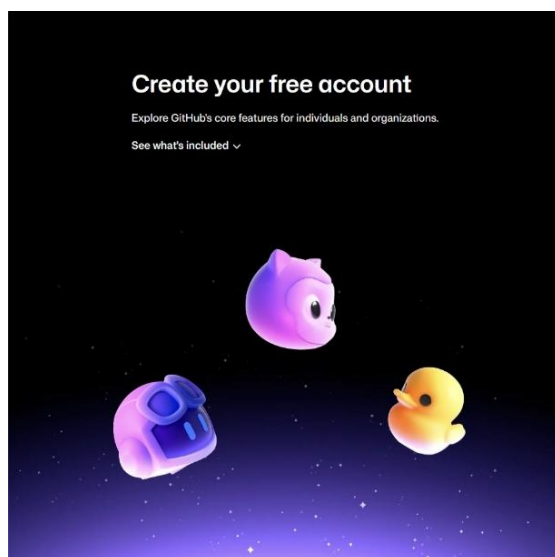

Email 填写网易邮箱（不建议 QQ 邮箱，虽然 QQ 邮箱也可以注册，但是可能没那么容易注册成功），Password 填写你的密码，Username 起一个你的账号名字（这个不能跟别人重复），Your CountryRegion 直接填写中国 China。点击 Create account 创建账号。

The image shows the GitHub account creation form. On the left side, there is a dark blue background with the text "Create your free account" and "Explore GitHub's core features for individuals and organizations." Below this text, there is a link "See what's included". On the right side, there is a white background with the text "Sign up for GitHub". Below this text, there are two buttons: "Continue with Google" and "Continue with Apple". Below these buttons, there is a link "or". Below the link, there are three input fields: "Email" (with the value "yantumanman@163.com"), "Password" (with a masked value "*****"), and "Username" (with the value "yantumanman"). Below the "Password" field, there is a note: "Password should be at least 15 characters OR at least 8 characters including a number and a lowercase letter." Below the "Username" field, there is a note: "Username may only contain alphanumeric characters or single hyphens, and cannot begin or end with a hyphen." Below the "Email" field, there is a dropdown menu for "Your Country/Region" with the value "China". Below the dropdown menu, there is a note: "For compliance reasons, we're required to collect country information to send you occasional updates and announcements." At the bottom of the form, there is a button "Create account".

验证中:

验证完之后跳到人机界面，它让我选择最短的一条路（不同人的问题可能不一样），然后我选择好，点击 Summit 提交。（这一条需要你懂一点英语，可以找 AI 帮忙翻译）

去邮箱查看验证码，填写到上面的空格中。
